

## UNIT 2 / Numbers and identity

# Prices and bigger numbers

Your goal: Read numbers to one hundred and understand simple prices.

## 01 Learn the idea

German numbers from twenty-one put the units first: einundzwanzig means one-and-twenty. The linking und stays inside the word. Use ein, not eins, in einundzwanzig. The tens include dreißig, vierzig, fünfzig, sechzig, siebzig, achtzig and neunzig; one hundred is hundert.

German prices often use a decimal comma: 3,50 €. In everyday speech, drei Euro fünfzig means three euros fifty. Ask Wie viel kostet das? for the price of one thing. For practice, break a written number into its units and tens before reading it aloud. Do not reverse the written digits.

## Words and phrases

| German               | English                  |
|----------------------|--------------------------|
| einundzwanzig        | twenty-one               |
| fünfunddreißig       | thirty-five              |
| hundert              | one hundred              |
| drei Euro fünfzig    | three euros fifty        |
| Wie viel kostet das? | How much does that cost? |

Say each phrase aloud. Listen on the lesson page, then repeat without looking at the English.

## 02 Conversation and mission

Read the conversation once for meaning. Repeat both roles, then cover the English and perform it again.

### Customer

Wie viel kostet das Buch?

How much does the book cost?

### Seller

Es kostet zwölf Euro.

It costs twelve euros.

### Customer

Und die Tasche?

And the bag?

### Seller

Fünfunddreißig Euro.

Thirty-five euros.

### Your real-life mission

Write 21, 35, 48 and 72 in German. Create price labels for a book and a bag, then ask and answer the price question.

Plan or write your response here. Try first; a model appears in the answer key.

# 04 Answer key and review

## 1. A - twenty-one

“einundzwanzig” means “twenty-one”. Read the example aloud, then use it in your own sentence.

## 2. B - thirty-five

“fünfunddreißig” means “thirty-five”. Read the example aloud, then use it in your own sentence.

## 3. C - one hundred

“hundert” means “one hundred”. Read the example aloud, then use it in your own sentence.

## 4. B - 42

The units zwei come before the tens vierzig in speech: 42.

## 5. B - 35 euros

The seller answers Fünfunddreißig Euro for the bag.

## One possible mission response

einundzwanzig; fünfunddreißig; achtundvierzig; zweiundsiebzig. Das Buch kostet zwölf Euro.

Your own answer can differ. Check whether it completes the task and uses the lesson's patterns.

## Build the habit

Today: say five phrases aloud. Tomorrow: cover the answers and try the quiz again. In one week: repeat the conversation with your own details.
