

UNIT 6 / Food and shopping

At the market

Your goal: Ask for amounts and understand common units.

01 Learn the idea

Use a number plus a unit to ask for food: ein Kilo Äpfel, zweihundert Gramm Käse, eine Flasche Wasser. Measure words often keep a singular-looking form after numbers, such as zwei Kilo. Learn the full phrase instead of adding an English-style plural to every unit.

Ich hätte gern is another polite request. Was kostet ein Kilo? asks for the unit price, which may differ from the total price. Listen for whether the answer concerns one item, one kilogram or the whole order. Repeat your amount clearly before paying, especially when the stall is busy.

Words and phrases

German	English
ein Kilo Äpfel	a kilogram of apples
zweihundert Gramm Käse	two hundred grams of cheese
eine Flasche Wasser	a bottle of water
Ich hätte gern ...	I would like ...
Was kostet ein Kilo?	What does one kilogram cost?

Say each phrase aloud. Listen on the lesson page, then repeat without looking at the English.

02 Conversation and mission

Read the conversation once for meaning. Repeat both roles, then cover the English and perform it again.

Mia

Ich hätte gern ein Kilo Äpfel.

I would like a kilogram of apples.

Seller

Gern. Das kostet drei Euro.

Certainly. That costs three euros.

Mia

Und zweihundert Gramm Käse, bitte.

And two hundred grams of cheese, please.

Your real-life mission

Prepare an order containing fruit by weight, cheese in grams and a bottle of water. Ask for a unit price and repeat the amount you want.

Plan or write your response here. Try first; a model appears in the answer key.

03 Practice without peeking

Choose one answer per question. For the final question, return to the conversation. Mark difficult items and explain your choice before checking the key.

1. What does “ein Kilo Äpfel” mean?

- A. a kilogram of apples
- B. two hundred grams of cheese
- C. a bottle of water

2. What does “zweihundert Gramm Käse” mean?

- A. a bottle of water
- B. two hundred grams of cheese
- C. I would like ...

3. What does “eine Flasche Wasser” mean?

- A. I would like ...
- B. What does one kilogram cost?
- C. a bottle of water

4. Which phrase orders 200 grams of cheese?

- A. zwei Kilo Käse
- B. zweihundert Gramm Käse
- C. zwanzig Gramm Käse

5. How much do the apples cost?

- A. Two euros
- B. Five euros
- C. Three euros

Reflection: Which phrase will you use this week?

04 Answer key and review

1. A - a kilogram of apples

“ein Kilo Äpfel” means “a kilogram of apples”. Read the example aloud, then use it in your own sentence.

2. B - two hundred grams of cheese

“zweihundert Gramm Käse” means “two hundred grams of cheese”. Read the example aloud, then use it in your own sentence.

3. C - a bottle of water

“eine Flasche Wasser” means “a bottle of water”. Read the example aloud, then use it in your own sentence.

4. B - zweihundert Gramm Käse

Zweihundert is 200, while zwanzig is 20.

5. C - Three euros

The seller prices the kilogram of apples at drei Euro.

One possible mission response

Ich hätte gern ein Kilo Äpfel, zweihundert Gramm Käse und eine Flasche Wasser. Was kostet ein Kilo Äpfel?

Your own answer can differ. Check whether it completes the task and uses the lesson's patterns.

Build the habit

Today: say five phrases aloud. Tomorrow: cover the answers and try the quiz again. In one week: repeat the conversation with your own details.
