

UNIT 10 / Work, messages and your final mission

Work and study

Your goal: Describe a job or course and where it takes place.

01 Learn the idea

Useful phrases include Ich arbeite als Lehrer and Ich studiere Informatik. Studieren usually means studying at a university; lernen is the broader verb for learning or revising. Use arbeiten for work and am Computer for working at a computer. Name your activity with one clear present-tense sentence.

A profession often follows sein without an article: Sie ist Ärztin. Many profession nouns have masculine and feminine forms, such as Lehrer and Lehrerin. When speaking about a person, use the form appropriate to that person. Questions like Was machst du beruflich? ask about work rather than what someone is doing this second.
